

# The Ely

data sheet

standard ●●○

The Ely incorporates many of the features found throughout the Queensbury ranges, including a safety mid-rail, making it an attractive, high quality vandal resistant shelter with a very clean and contemporary design.

The Ely is designed around a steel frame, which can also be manufactured from stainless steel for a more premium look. The steel sandwich roof is edged with an aluminium extrusion for added strength. Queensbury's own side glazing system is utilised which is secure and unobtrusive, yet easily accessible for maintenance. The glazing system can accept a variety of materials from toughened glass to solid painted galvanised panels

Configurations for the bus shelter include both cantilever and enclosed designs for improved protection from the elements.

## SIZE

The standard Ely bus shelter is available in 1290mm pitch bays, with a roof width of 1375mm.

Ely (Stainless Steel)  
Cantilever, 1.29m Pitch, NEPs

ELY  
Enclosed RL, 1.29m Pitch

ELY (Stainless Steel)  
Cantilever, 1.29m Pitch, NEPs

ELY  
Cantilever, 1.29m Pitch, FEP
