

# The Promenade

data sheet

premium ●●●

The stylish Promenade shelter combines modern design with functionality. The elegant roof shape and option of large format glazing panels makes it suitable for both historic and more modern locations

With two side glazing options and two different roof material options the Promenade shelter can be adapted to suit all environments. The shelter is based around a tubular steel frame with a curved panel style roof. There are two options for the side glazing:

**Option 1: Full height.**

Single point glazed panels with screen printed manifestations and circular stainless steel fixings. Single colour dot or lozenge manifestations are included as standard, price on application for bespoke designs.

**Option 2: Mid Rail.**

Glazed panels which are held in an aluminium glazing system and divided by a mid rail.

Optional lighting is provided by an LED fitting housed in an aluminium extruded frame.

A stainless steel version of this shelter is also available

**SIZE**

The Promenade is available in standard pitches of 1000mm and 1300mm with roof widths of either 1500mm or 1600mm.

1.6m Promenade (Stainless Steel)  
Cantilever, 1.3m Pitch, HEPs, Poly Roof, Mid Rail Glazing

1.6m Promenade  
Cantilever, 1m Pitch, QEP/FEP, Solid Roof, Full Height Glazing

1.6m Promenade  
Cantilever, 1.3m Pitch, HEPs, Poly Roof, Mid Rail Glazing

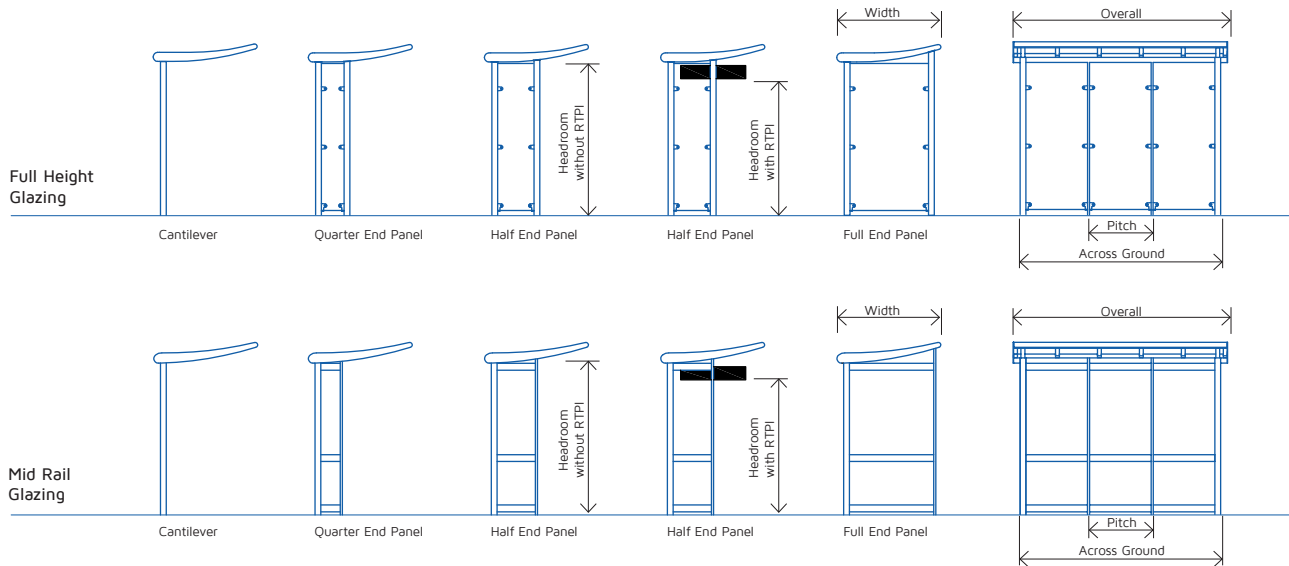

1.6m Promenade  
Cantilever, 1.3m Pitch, HEPs, Poly Roof, Mid Rail Glazing
